

## Colby Grade School After School Program

(CGS ASP)

We are very excited about the CGS After School Program! A 21st Century Community Grant makes this free service possible to all community children grades K-5 with no cost to the district.

The vision for the CGS After School Program is to broaden learning horizons for K-5 youth through high quality academic and life skills experiences. The learning will be facilitated by technology in a safe and caring environment.

This program will run Monday-Thursday after school until 5:30 p.m. at Colby Grade School. Students may be enrolled on a regular basis for each day, specified days, or occasional days.

Jump Start is a two-week session in late summer to help prepare students for the upcoming year. The program will be Monday- Thursday from 8:00 a.m.-12:00 p.m. Academics, wellness, and enrichment will be a part of each day.

The program will offer nutritious snacks and activities to promote health and wellness. Certified teachers and paraprofessionals will support and enhance academics in a technology rich environment by tutoring, providing homework assistance, and extending learning designed to meet each child's needs. Educational enrichment sessions such as drama, art, music/dance, martial arts, and Lego robotics are just a few activities that will be a fun and exciting part of the program. Kathy Vaughn is the Program Director; you can contact her by email with any questions you might have.
